REPORT OF THE SELECTMEN

The general conditions of the town in 1959 were fairly favorable considering the increasing demands for revenue. These increases are not only on a local level but are also State and County obligations.

This year has not been as productive in so far as the lumber business is concerned as last year. The amount of yield taxes were not as great and for an example lumber companies have hauled away lumber valued at more than \$20,000.00 this year, which we most naturally expect, however this business helps the property owners and if the business slows we taxpayers have to make up the difference. The town's valuation increased only slightly over last year despite the new homes becoming more completed and additional construction around the Clough Pond area, this was due primarily because of our loss in lumber.

The farming business which is mostly dairying is still holding its own. The poultry business which has been dropping off over the past few years is still dropping. Ten years ago for an example, the dairy men paid only 45% more taxes in dollars and cents to the town on their cattle than the poultry growers, 1959 saw the dairy farmer paying 87% more than the poultry farmer.

Our tax rate for 1959 took a larger jump than we would have liked, however state reports show that the average rate state-wide was \$60.00, two towns in the state went over \$90.00, eleven over \$80.00, twenty-seven over \$70.00, a few held their same rate and some reported decreased rates. The reasons for our increased rate lies between the increase of school costs, Pearl Bridge, Town Welfare and County taxes. Our county taxes have increased around 32% in the past ten years and up \$272.92 from last year. Checking back ten years again we find the Loudon tax rate to be \$62.00, with a town valuation of \$906,751 comparing the \$59.80 rate for 1959 with a value of the town \$1,622,136.66. The estimated budget of 1949 \$59,257.63, the estimated budget of 1959 \$99,990.00. We conclude that things are still some-

what portional. Property tax collections for 1959 have come in very well, better than those of last year. The Selectmen would like to call to your attention the 2% discount if paid within 30 days it is better for the individual taxpayer to receive this discount, than to have the town pay 2½% and add a share of it to your taxes.

Our roads are in good condition considering the increase cost of labor and material and a budget that hasn't changed in the past few years. We understand people have better autos and expect better roads on which to travel, but they must also expect in the near future an increase in our highway budget. The T.R.A. project at Upper City is completed and the Clough Hill project is progressing nicely and we hope the Pearl Bridge isn't up any longer than necessary. It has been an inconvenience to the town and also to those living in or near the area especially in winter months. We know however, the bridge will be well worth the short delay.

At this time we would like to take the opportunity to thank all the other departments and town officials of our local government for the fine cooperation extended us during the year of 1959, it has been a pleasure and an honor working with you.

ROAD AGENT'S REPORT

Contained in the following is a report of work completed during 1959.

There was an unusual amount of bridge repair with the following being replanked; Christina Clough Bridge, Twin Bridge, Guessmeadow Bridge, Bumfagon Bridge, with the Bridge at Rickers being completely rebuilt.

There were a number of culverts that were considered insufficient, with new culverts replacing them. Two each on Lower Ridge and Moses Road, and one on each of the following; Bee Hole Road, Pleasant Street, Kendall Road, and Guessmeadow Road. Also about 90% of all remaining culverts were cleaned completely.

There were 16,000 gallons of tar applied, together with 20 ton of Cold Patch.

Along with the usual summer grading and maintenance, about 250 yards of gravel was distributed in needing places throughout the town.

REPORT OF FIRE DEPARTMENT

The year 1959 saw fire losses in town at a new low. The Fire Department was called on 51 times, 11 chimney fires, 2 building, 5 brush and grass, 7 out of town, 15 service calls, and 11 miscellaneous calls. We called for and received assistance from Canterbury, Belmont, Laconia, Pittsfield, Chichester, and Concord.

The new truck is paid for and has proven its worth several times. New suction hose of the proper size and 200 feet of 1½" hose has been added to Engine No. 1, bringing that piece of equipment to peak efficiency.

The fire station has been painted outside, and improvements have been made on the inside by department members at no labor cost to the town.

In cooperation with other town agencies, fuel oil and gasoline is being purchased on contract thru competitive bidding at a substantial saving.

This past year we made a modest replacement of worn out protective firemen's clothing. This clothing was acquired 11 years ago from the Ladies' Auxiliary and public subscription. More worn out clothes will need replacing this coming year.

During the year an Aqua-Stat has been installed in the Loudon Grade School heating plant. This is connected to a Master fire alarm box, which in turn is connected to the fire alarm system. This Master box automatically sounds an alarm if anything goes wrong with the heating system. It is also a manually operated box, making one more street box for added protection. The Aqua-Stat and Master Box was paid for by the School District, and installed and wired by fire department personnel.

The 5-KW generator, purchased thru Civil Defense is wired and ready to take over the electrical needs of the fire station and Civil Defense headquarters should there be a power failure. All wire, boxes and labor by fire department members.

As in the past the Ladies' Auxiliary is assisting the de-

partment in many ways. Taking over the radio and phones during fires as well as providing hot lunches at fires are only two of many.

The department wishes to say "thanks" to everyone for their cooperation in helping keep fire losses low. Let's make 1960 the best year yet, firewise.

The men and trucks are ready to "roll" anytime, day or night for any emergency. Don't hesitate to call.

A cordial invitation is extended to every one to inspect the station, trucks and equipment, and to sit in on any of our meetings held the second Monday of each month.

REPORT OF FOREST FIRE WARDEN

The year just past is the first for some years with no loss from forest fires and the resulting expense for extinguishment. Five fires started, but prompt reporting and quick response by the fire department kept them small.

Use the town dump for disposal of waste. Burning there is supervised and controlled.

Report any fire or suspicious smoke promptly to the fire department. Remember there is no charge for runs of an hour or less, so stay alert, keep expenses down, way down.

A permit is a *must* from the Warden before kindling any outside fire when the ground is barren of snow. After burning be sure your fire is OUT, ALL OUT before leaving it.

Always be careful of fire and we will have a better record in 1960.

Remember, fire prevention is good business for everyone.

HARLAN DOWNES, *Warden*

PREVENTION IS EVERYBODY'S BUSINESS

The year 1959 was fortunate from a forest fire standpoint. New Hampshire had the best record in the nation. Fewer acres were burned, suppression costs were substantially reduced and damage to woodlands held to a minimum. The record resulted from a combination of favorable weather conditions, an alert warden service and a cooperating public.

Yet, despite all this, there still persists a disturbing note: 58%, or 6 out of every 10 fires in 1959 were caused by careless smokers and debris burners.

10%, or 1 out of every 9 fires was caused by children.

Careless, indifferent, thoughtless and independent minded individuals and failure of parents to properly supervise children and keep matches out of their reach, annually cause these unnecessary fires which cost large sums to extinguish and cause extensive damage. The elimination of these three causes of fires would radically change this picture. The rules are simple —

1. Before burning, secure a permit from your local forest fire warden — the law requires it.
2. Be sure to properly supervise your burning.
3. Make certain your fire is DEAD OUT before leaving it.
4. Don't throw lighted matches, cigars and cigarettes from moving vehicles — use your ash tray.
5. Don't burn at home — use your town dump and save yourself much possible difficulty, both personal and financial.

Number of local fires — 3

Number of acres burned — $\frac{1}{2}$

Number of permits issued — 128

CIVIL DEFENSE

The Survival Project set up by the State of New Hampshire was terminated last spring, after completion of said project.

The following is a brief summary of said project, which should be of interest to the people of our community.

AREA VI

“A” The state has been divided into eight geographical divisions, known as Civil Defense Areas, to provide maximum advantages to emergency Civil Defense Operations.

“B” Each of the 237 New Hampshire cities and towns are included in one of these areas and are further classified by assignment.

1. “Evacuation” — Communities — towns/cities to be evacuated from areas of potential damage.
2. “Reception” — Communities — towns/cities assigned the responsibilities of housing and caring for evacuees, either in the state or interstate.
3. “Standby Reserve” — Communities — towns/cities which are neither evacuated nor assigned evacuees in the initial operations. Their responsibilities are to expedite evacuee traffic through their communities to designated Reception Areas elsewhere in the state and to prepare to receive surplus evacuees which may be assigned in Post Attack Period to achieve better equalization of the burden throughout the state.

AREA VI COMMUNITIES

1. *Evacuation communities*
Bow
Concord
Pembroke

2. *Reception communities*

Allenstown	Loudon
Boscawen	Northfield
Canterbury	Pittsfield
Chichester	Salisbury
Epsom	Tilton
Franklin	Webster
Hopkinton	

3. *Standby-Reserve Communities* — None in area VI

As you have noted, Loudon is a reception town and they are to receive ward No. 2 of Concord, which has a total of 600 people. These people are to be evacuated to Loudon, to the control center (Loudon Fire Station). We hope to place them through our supply and welfare officer.

To further add to our report, April 17, 1959 saw us in a National Test Alert, directed by our past Civil Defense Director, J. W. Robinson. In brief his report is as follows, "There was more interest and participation during this test than any held previously."

The following units were activated and operational; Attack warnings and communications, Control Centers, Police, Fire Administration, Welfare and Supply, Radef Unit, Manpower, Evacuation and Transportation.

The schools and Radef Unit cooperated 100%, also there were as expected a few criticism reports.

Your Local Fire Unit is keeping up their part of Civil Defense through their fire obligations also your Radef Unit has been meeting nearly every month, not only to keep their interest but to keep up with new developments. We hope some of the other units will take their obligations more serious and come up with more of a program in the future.

Respectfully submitted,

ROBERT McLAREN,
Local Director
